

U06/W06/U07/W07 – TEAM SELECTION SESSIONS

There are two ways in which your child may be allocated to a team for the 2026 season.

There will be two assessment sessions and irrespective of your choice, **all players are required to attend both assessment sessions.**

OPTION 1: Select your own team of a maximum of six players.

Please fill in the provided team form and submit it via email at info@menaihawks.org.au no later than the date specific to your age group below.

OPTION 2: Be graded into a team of players of equal ability.

If your child does not have a team, the club will allocate them a team of similar ability players based on their performance during the grading sessions. Their team will be advised during Session 2.

PROCESS:

Each age group will participate in two sessions.

Session 1: Skills session, followed by games to determine each player's level of ability (Advanced, Intermediate, Beginner).

Session 2: Games amongst allocated teams. This is used by the club to determine which division each team will be requested when we submit teams to the association.
